MEMORANDA.

Trade.—The Oversea imports during July were valued at £2,629,437 and show an increase of £322,925, or 14 per cent., as compared with the corresponding month of last year.

The Oversea exports during July amounted to £2,729,981, being a decrease of £508,117, or 15·7 per cent., as compared with the corresponding month of last year.

Imports at Sydney.—Excluding the value of the imports from State ports, the articles imported at the port of Sydney, in July were valued at £4,680,746. The following is a summary of the imports during the month :—

					Weight and Measurement.	Value.
					tons.	£
Imports Oversea	72,715	2,598,239

A few special articles, denoted by number in the detailed table within, have been converted into weight or measurement, and are included in the above statement.

Public Finances.—The Public Accounts for July show that the net revenue for the month was £1,627,625, or £270,106 more than in July of last year—an increase of 19·9 per cent.

Principal increases during July were—

	£
From Commonwealth Returns	2,391
Public Lands	878
Taxation	47,159
Railways and Tramways	199,502
Sydney Harbour Trust	3,892

Principal decreases during the same period were—

From Pilotage	1,281
Water and Sewerage Rates	1,893

The expenditure during July was £1,732,350, an increase of £75,290, or 4·5 per cent., as compared with July of last year.

Principal increases during July were—

	£
Government Departments	6,277
Business Undertakings	69,871

On the 31st July, 1918, the Consolidated Revenue Account was in debit to the amount of £601,717.

Gold Production.—The gold yield during July, 1918, was 6,158 oz. crude, equal to 5,894 oz. fine, valued at £25,036, and showed a decrease of 4,513 oz. fine, and £19,171 in value, compared with July of last year. The value of the gold produced during the seven months was £214,928, and showed an increase of 324 oz. fine, and £1,377 in value, in the figures for the corresponding period of last year.

Railways.—The Report on the Railways for the year ended 30th June, 1918, shows that the earnings amounted to £8,954,880, and were £574,795, or 6·86 per cent. more than in the preceding year. Of the increased revenue, £530,939 resulted from the operation of increased rates and fares, and the balance, £43,856, from additional business. The loss of revenue, due to the industrial strike during the early part of the year, is estimated at £425,000. The working expenses were £5,940,447, the balance being £3,014,433, or £549,708 in advance of 1916-17. After paying working expenses and interest on capital, there was a deficit of £28,916. The proportion of working expenses to earnings decreased from 70·59 to 66·34 per cent. The expenditure in respect of the extra cost of salaries and wages due to Wages Boards awards, and of the additional cost of coal and other materials used during the year, represent increases of £143,948, and £250,120 respectively.

All sources of earnings, with the exception of the revenue from the carriage of grain, flour, and minerals, show satisfactory increases as compared with the previous year.

Tramways.—The total earnings on all lines of Tramways for the year 1917-18 amounted to £1,992,641, and the working expenses to £1,603,260, leaving a surplus of £389,381, equivalent to a return of about 4·6 per cent. on the capital expended on construction and equipment.

Cost of Living, Sydney.—From the information collected each month (see Table 56) as to the retail prices in Sydney of food and groceries, it appears that in July, 1918, prices were 34·3 per cent. higher than in July, 1914; 1·7 per cent. higher than in July, 1917; and 0·4 per cent. lower than in the preceding month, June, 1918.

Meat, which is included in the results quoted above, shows prices in July, 1918, 60·7 per cent. higher than in July, 1914; 1·1 per cent. cheaper than in July, 1917; and 0·4 per cent. lower than in June, 1918.

The following is a statement of the price levels since July, 1914, the levels for which were taken as base, and called 100 :—

June „	161·3	125·9	135·1

Prices of meat were slightly lower than in June, and were higher in one month only since January, 1916, viz., in June, 1917, when the level was 158·8.

With the exception of eggs, which declined about 7½d. per dozen, prices of other commodities showed little alteration, although minor increases were noted in the prices of butter, sago, raisins, currants, and candles.

Meteorology.—The total rainfall during July, although a considerable improvement on that recorded during the two previous months in many parts of the Central and Northern areas of the State, was, on the whole, below normal. A tropical rainstorm of some severity, operating during the third and fourth weeks, ended the prevailing dryness over a considerable portion of the State and yielded substantial relief. Its influence was, however, most marked on the North-eastern half, including the coastal districts, as it did not reach some parts of the far West and North-west sections. In the Metropolitan and South Coast areas the falls at many places ranged from 5 to 15 inches (the Catchment area of the Sydney Water Supply largely benefiting), and, with the Hunter and Manning district, exceeded the average; while at many stations in the Western district and in Riverina there was marked scantiness, the rain being exceptionally light and scattered. From the Plains eastward the results, on the whole, were satisfactory, the exceptions being the North Coast and parts of the Northern Tablelands.

Vital Statistics—Sydney and Suburbs—July, 1918.—The births registered numbered 1,691, equal to 26·11 per 1,000 of population per annum; of the total, 873 were males and 818 females. The rate is 10 per cent. below the average of the previous five years.

The deaths numbered 842, namely, 455 males and 387 females. The mortality rate of 13 per 1,000 of population per annum, is 9·7 per cent. above the average of the previous five years. The deaths were below the average in age-groups under 1 and 1-4, and above the average in age-groups 5-64 and 65 and over.

The infantile mortality was 72·7 per 1,000 births, and is 10·7 per cent. above the average for the month of July for the previous five years, and the highest rate for the month of July since 1913.

New Buildings—Metropolis.—According to returns supplied by the several Town Clerks, there were erected, in the Metropolitan area, during July, 471 new buildings, as compared with 499 in July, 1917.

The total for the seven months, January to July, was 2,942, as compared with 3,172 during the corresponding period of 1917.

Land Selections.—During July, 93 applications were made for 109,011 acres under the Crown Land Act; and 125,925 acres, representing 136 blocks, were gazetted for residential settlement, which includes areas set apart for returned soldiers. Since the beginning of the year the number of applications has been 550, and the area applied for 433,903 acres. The original area gazetted for residential settlement since the 1st January is 492,696 acres, representing 588 blocks.

* Since the 25th March, 1916, the official f.o.b. price of wheat for flour for home consumption has been 4s. 10d. per bushel. This includes 3d. handling and commission charges, but city millers, handling grain for their own mills, obtain it for 12d. per bushel less than the f.o.b. price, so that since that date the price of wheat for flour for home consumption has been 4s. 9d. per bushel (on trucks), Sydney.
